COL. WOODSON MAY.

The above is a good likeness of Col. Woodson May, of Somerset, Democratic State Central Committeeman from the Eleventh Congressional District, and an aspirant to succeed himself.

Col. May has made a faithful and efficient official of his party and so acceptable has his work been that there is almost a unanimous call for him to continue the task so well begun.

By his untiring work and hearty cooperation of his party, the District is in better fighting trim than ever known to be as shown by recent elections, and this fall will go into the presidential fight with the determination to give the enemy the hardest battle ever fought on Kentucky soil. And while we are a new star in the constellation of the eleventh, we are here with our fighting clothes on to meet the common enemy, and, in the

mean time we heartily indorse Col. May for Committeeman, and will gladly give him any assistance we can.

Gov. McCreary recognizing the faithfulness and ability of the Colonel, one of his official acts, after he became Governor, was to appoint him on his personal staff.

We have been personally acquainted with the Colonel for several years and find him to be a Kentucky gentleman of the old school and a simon pure Democrat. And he having been born and raised in the Eighth District and the Blue Grass part thereof, and since spending a number of the best years of his life in the Mountain portion, he is conversant with the politics of the State generally, and has made and will make an ideal Committeeman.

### MONEY FOR GOOD ROADS.

Less government money for battleships and useless political navy yards, and more for improvement of the public roads!

Every day the wisdom of this proposal is appealing more strongly to the national lawmakers. In fact it is being made to appeal more strongly to them by the agitation of the subject by the farmers in all parts of the country. It is only a question of short time until agitation of the subject will find expression in legislation.

The champions of road improvements do not want, and do not demand that any new expense be saddled on the government treasury. Their program is the essence of simplicity and reasonableness, for all they ask is that the government use money which is being wasted to give the nation better highways.

The federal government of this country has never taken much interest in road building, and in this respect is behind all foreign nations, everyone of which has roads which put us to shame. Wagon roads, like waterways and railways are the commercial arteries of a nation. They must be in good condition if the commercial health of the country is to be good. Improved roads, as compared to unimproved roads, lessen the distance from farm to railway station more than one half. Land ten miles from a shipping station on bad roads, will rent and sell for an almost double amount if the roads are made good in every way.

The Good Roads idea is gradually becoming of greater political significance, and therein lies the hope of the friends of the movement, because whatever action is taken must have its source in Congress.

### A GOOD ROADS GATHERING.

Paducah is arranging for a good roads day celebration to be held on Tuesday, May 14 and will set a barbecue dinner and invite all Western Kentucky to join in the festivities as well as in the more solid exercises of the occasion.

Arrangements have been made for a lecture and roadbuilding demonstration by D. Ward King, the inventor of the non patent King drag which has accomplished so many wonders in roadmaking in different parts of the county. Besides stimulating the good roads movement generally in Western Kentucky it is planned to make the gathering a starting point for the renewal of operations on the Jefferson Davis highway.

Western Kentucky is coming to the front handsomely for good roads. In nearly every county in that section of the State highway improvement is a live issue and the people, in increasing numbers are demanding better thoroughfares. In most of the counties there is plenty of first class road-making material, and the cost of construction is smaller than in the case where such material is lacking and must be transported for long distances.

The Jefferson Davis highway project is one of the most ambitious plans that have been evolved in Kentucky for a throughfare of more than local importance. The preliminary surveys have been made and all the counties interested have shown a commendable disposition to aid in the enterprise. It has been largely responsible for the general awakening on the subject of good roads in the "Pennyrite" region and in Jackson's Purchase. The Paducah convention should give it such an impetus as to leave no doubt of its splendid materialization.—Courier Journal

### HELPS A JUDGE IN BAD FIX.

Justice Eli Cherry, of Gillis Mills Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25 cents at Chas. C. Davis.

### TAFT AND ROOSEVELT.

Richmond Virginia: Admitting Roosevelt's power of brutal appeal we shall await with confidence the verdict of the great American jury concerning two public men who did they attempt privately what they do politically, would be ostracised on the streets of any self-respecting community.

Mobile Register: The President lowers the office when he goes scrambling for his retention of it. Some things are not worth having. Life, for example, where honor is lost, or office that must be obtained by a sacrifice of self respect.

New York Post: Fancy giving the Democrats such a campaign document as would be the speech of a Republican President denouncing the Republican nominee as a man without a shred of character! This, in the political aspect, is the extraordinary, even appalling, plight into which the Republican party has been plunged by the bad faith and the mad ambition and the perilous obsessions of Theodore Roosevelt.

Pittsburgh Post: The contest between President Taft and Theodore Roosevelt has reached the acute stage. They are facing the crucial test, each with a determination to destroy the other, and at the same time the old party is crumbling at both extremes. It is like a race for the distinction of winning credit as chief scuttler of the ship; and no matter who wins, the ship will be scuttled just the same.

Cleveland Plain Dealer: It marks a breaking down of tradition, a new deal in politics; it sets a precedent in forcing a President seeking renomination to go forth strenuously into the fight to show by what right he demands the honor. Whatever may happen, this is better than for the people to allow steam roller to do their thinking for them.

New York Globe: Whatever the result of the Chicago convention, it is evident the President has lessened the likelihood of his reelection. His latest venture is another political blunder. Abuse of Roosevelt by any one does not help Taft; abuse of Roosevelt by Taft himself certainly does not help Taft.

Detroit Free Press: The blame for this sorry pass, the whole blame lies on the shoulders of Theodore Roosevelt, and the people of the nation can only thank the President for so bravely discharging his distasteful duty to the people in a crisis that was so basely torced upon him.

### WHAT TEXANS ADMIRE.

is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife I believe they are the best made." Excellent for stomach, liver or kidney troubles. 25 cts Chas. C. Davis.

New York World: Have the Republicans learned nothing from Democratic folly and Democratic madness? Are they ready to go before the country as a party of demagoguery, dictatorship and disaster?

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by Chas. C. Davis.

The piano is the greatest of all pleasure instruments for the home and it is no longer necessary to be an accomplished musician in order to play it.

Human Ingenuity has made it possible for anyone to play a piano by means of perforated music rolls—thus eliminating years of tedious practice—and placing the responsibility of correct playing on the piano rather than on the pianist.

A prospectus has issued from which we will take a number of clippings for our next issue which will give some idea of just what the company expects to do at Pine Hill.

Now Fellows, say it all together — "WHAT'S THE MATTER WITH FISH'S GUARANTEED CLOTHES" "They're all right." We've got the goods to prove it, too.

THERE'S a lot of enthusiasm this spring among the young men for our clothes and among the older men too. Plenty of reason for it in the styles we show, and we know, and you know, that there are no greater values to be had at the price.

Come here for your Spring Togs and we'll put the right sort of Clothes on you. Don't put it off because we have a little cold snap but pick 'em out now.

Don't Worry about the Price — — We have

THE ONLY CLOTHING STORE IN THIS TOWN

When the Brown Memorial sold their building to the Graded school two years ago, there was some question whether or not that institution would continue in Mt. Vernon and the action of the board in making the school a permanent institution, was due largely to the hearty solicitation of Mt. Vernon people. About one year ago now when the question came before the Supt. of schools for Kentucky for final action, a number of interested citizens met with the Superintendent and assured him of the earnest desire of the people of Mt. Vernon that the school should be made a permanent one. The question of the site on which to erect buildings was also discussed and the assurance was given that if the school was continued that the town of Mt. Vernon would donate certain lots just back of the school property, on which it is the intention of the school board to erect suitable school buildings, in the near future or as soon as the requirements of the school demand it. At a meeting held in Attorney C. C. Williams' office a few nights after the meeting held with the Supt. of the Presbyterian schools of Kentucky, a subscription was started to raise money to purchase five lots belonging to T. N. Noe and Arthur Daily in the Asher Addition and which joins the Brown Memorial property.

The following subscription were received:

W. J. Sparks	\$50.00
C. C. Williams	50.00
E. S. Albright	50.00
J. W. Brown	50.00
A. B. Furnish	50.00
J. W. VanWinkle	50.00
Dr. S. C. Davis	10.00
R. L. McFerron	25.00
Sutton & McBee	25.00
S. D. Lewis	5.00
Dr. D. B. Southard	15.00
Mrs. Annie E. Miller	10.00
Chas. C. Davis	10.00
S. B. McKenzie	5.00
R. A. Sparks	5.00
Fritz Krueger	25.00
M. J. Miller	10.00
Dr. R. W. Dyche	5.00
Dr. A. G. Lovell	25.00
R. B. Mullins	10.00
S. F. Bowman	5.00
W. M. Bullock	5.00
T. N. Noe	12.50
W. L. Richards	10.00
Donated	10.00
<b>Total</b>	<b>\$482.50</b>

The four lots purchased from T. N. Noe were bought for \$462.50 and one from Arthur Daily for \$70 making a total of \$532.50 the purchase price of the five lots. There remains a balance of \$50 yet

to be made up, and as the Supt. is soon to visit Mt. Vernon again those who have charge of the collection of this subscription are anxious that this \$50 additional money be raised that the deeds may be ready to turn over to proper authorities at that time. We feel that there are others who are able and would be glad to join in this most laudable effort to help keep in our town an institution which is not only doing a great work in the education of our young but an institution which has been a blessing to our town and which today must be pointed to as the principal source of the upward march of Mt. Vernon. A second reason why we offer this statement is because the writer has been the principal one in charge of these funds and we want those who have contributed to know exactly how much has been collected and how expended. There are some who have contributed nothing, who should be glad to give something, though it be small and in order that this matter may be closed in time we ask, may we not have voluntary subscriptions sufficient to cover this small balance. Anyone desiring to make a contribution no matter how small, will please report same to SIGNAL office and same will be reported in this paper when the full amount has been secured.

If you intend to give, please act at once as it is important that this matter be closed at once.

## HOME ECONOMIC CLUB.

The Home Economic Club, held its semi-monthly meeting, April 20th, at Langdon Dormitory.

The exercises for the first half hour was devoted to giving quotations from various men of letters, pertaining to domestic science, which proved conclusively that "Men may live without poetry, music or books, but civilized man cannot live without cooks."

During the rest of the meeting Miss Oskamp occupied the time in giving demonstrations on salad making, and was ably assisted by Miss Ella Carson and Miss Vivian Howard. Each dish looked most attractive and members were given the opportunity of sampling the same and testing their palatableness. The food value of different salads was explained, showing why the same kind of dressing should not be used for every salad, and illustrated the principal in tomato jelly, aspic jelly, bean and pimento salad, chicken salad, beet, potato, fruit and salmon salads.

The next meeting of the Club will be held Saturday, May 4th, at 2:30 p.m. at Langdon Dormitory. The programme promises many interesting and instructive features. All who are interested in house-keeping are invited to attend.

## BROWN MEMORIAL SCHOOL.

Misses Mattie Huff and Vivian Howard were hostesses at twelve o'clock breakfast prepared and served by the High school cooking class on Friday. The menu consisted of

Chilled fruit  
Post Toasties and Cream  
Eggs a la Sicilian  
Asparagus Beaten Biscuit  
Coffee  
The guest included Mesdames Fanny Adams, Reuben Mullins, C. C. Williams, Houston, C. Brown, West, W. J. Sparks, Misses Williams, Watson, McCord, Rowlee and the Rev. Mr. Watson.

Miss McCord is in Berea attending the meeting of the Transylvania Presbyterian Society of which she is auditor. She will return today.

The proposed improvements for Rockcastle include three important enterprises, viz, a \$100,000 cement plant, a \$25,000 flour mill and a railroad from the Jackson county line to the Pulaski. As to the latter there is some speculation but as to the other two there is no question and what such enterprises will mean to the county, no one can estimate.

Lawrence Beasley, a son of our townsman Roy Beasley was one of the number rescued from the Titanic. The New York and other city papers have given several interest accounts as told by young Beasley which are credited as being most graphic and interesting reports told by any of those who made their escape from the ill fated ship. Mr. Beasley, who was greatly shocked when he learned that his son was one of the number on the ship, has written him to come to Mt. Vernon and should he come we hope to be able to give our readers several interesting articles connected with that awful tragedy.

Breeders take notice.—J. S. Langford will give \$100.00 for the best stallion colt sired by his horse Rockett Peavine. See him for particulars.

Very truly,  
ALBERT ALLEN.

The Lincoln county jury selected to try Owen W. Turpin for killing of Bogie Phillips, after deliberating for some five or six hours returned a verdict of not guilty.

## Nature's Way Is The Best.

Buried deep in our American forest: the red bloodroot, queen's root, man-  
drake and stone root, golden seal, Oregon grape root and cherry bark. Of these Dr.  
R. V. Pierce made a pure glyceric extract which has been favorably known for  
over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire  
system in Nature's own way. It's just the tissue builder and tonic you require  
when recovering from a hard cold, grip, or pneumonia. No matter how strong the  
constitution the stomach is apt to be "out of kilter" at times; in consequence  
the blood is disordered, for the stomach is the laboratory for the constant manu-  
facture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach-  
factory of blood. Dr. Pierce's Golden Medical Discovery helps the liver and  
kidneys to expel the poisons from the body. The weak, nerv-  
ous, run-down, debilitated condition which so many people  
experience at this time of the year is usually the effect of  
poisons in the blood; it is often indicated by pimples or boils  
appearing on the skin, the face becomes thin—you feel "blue."

J. G. KERY, Esq.

"More than a week ago I was suffering with an awful  
cold in my head, throat, breast, and body," writes Mr.  
James G. Kery, of 710 L. Street, C. D., Washington, D. C.  
"Some called it the Grippe, some pneumonia. I was advised  
by a friend to try a bottle of your 'Golden Medical Discov-  
ery.' I tried a bottle and it did me so much good that I feel  
every body. My health is much better than it was before  
using your medicine. It does all you claim for it and is  
satisfactory."

## Couldn't Walk!

"I used to be troubled with a weakness peculiar to  
women," writes Mrs. Anna Jones, of Kenney, Ill. "For  
nearly a year, I could not walk, without holding my sides.  
I tried several different doctors, but I grew worse. Finally,  
our druggist advised Cardui for my complaint. I was so  
thin, my weight was 115. Now, I weigh 163, and I am  
never sick. I ride horseback as good as ever. I am in  
fine health at 52 years."
